8 NOV 1965

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Air Force Project [REDACTED]

25X1A

1. This memorandum contains information on the availability to CIA of the Air Force Project [REDACTED] Reports. No recommendations are included.

25X1A

2. I have determined that Major General Reynolds, Chairman, CCPC, obtained some [REDACTED] Reports; others are being requested from the DoD Documentation Center, and one from SecAF. These actions will place in our hands what is considered the bulk of the Project [REDACTED] useful information about potential new weapon systems and intelligence collection and processing systems, as well as useful extrapolations in the technical state-of-the-art potentialities through 1975.

3. Attached for your information are reports of the Project [REDACTED] Planning Group and of the Intelligence and Reconnaissance Panel dealing with potential capabilities in intelligence acquisition. The report requested from SecAF, issued by the Analysis, Evaluation and Synthesis Panel, will be forwarded when it is received. Reports of the Technical Panels (for example, Guidance, Weapons, Materials, etc.) will be distributed to appropriate elements of CIA.

25X1A

[REDACTED]

ALBERT D. WHEELON
Deputy Director
for
Science and Technology
